## Who We Are.

Mohd Firoz Tech. Cont. has been a trusted name in the UAE since 2010, renowned for excellence in structural fabrication, welding, HVAC, electrification, erection, and manpower services. Established by our visionary Founder and Managing Director, Mr. Mohammed Firoz, the company has grown into a leading group, successfully delivering projects across a wide range of industrial sectors. We have a proven track record of working with prestigious clients and have consistently delivered high-quality solutions tailored to their needs. We are committed to safety, quality, and timely delivery—backed by a strong team of certified professionals and advanced tools & equipment.

# WHY CHOOSE US

## Delivering Quality, Always

We aim to be your “One-Stop Shop” for:

- Pipe structural steel fabrication & erection
- Precision welding
- HVAC & electrical solutions
- Certified manpower supply

We proudly serve the oil & gas, industrial, and utility sectors with:

- Fast, efficient, and reliable service
- Custom fabrication from design to installation
- Competitive pricing without compromising quality

100% client commitment and satisfaction

# OUR VISION

## Our Long-Term Goal

Our vision is to become the most trusted and preferred partner for industrial services across the UAE. We aim to consistently deliver exceptional value, on-time project execution, and top-quality results that exceed client expectations. We are committed to maintaining the highest standards of safety, innovation, and integrity in every task we undertake. By empowering our team with knowledge, skills, and a strong sense of ownership, we cultivate a culture of excellence and accountability. We take pride in every project, big or small, and believe that our success is built on the satisfaction of our clients and the lasting impact of our work.

## Welding Services

**TIG, MIG, ARC, AP11104, ASME IX  
Carbon Steel, Duplex Stainless Steel, Aluminum  
Certified 6G Welders (GTAW, SMAW+GTAW)  
ISO Certified and highly skilled workforce**

## Fabrication & Erection

Water Treatment Plants  
PVC, Tanks, Vessels, Pump Rooms  
AHU, FCU, and Piping Systems

## Subcontracting Services

Complete Structural Steel Works

Pipe Fabrication (MS, CS, SS)

Chilled Water Systems, Valve Packages

Pressure Testing and HVAC Installations

## Manpower Supply

**Welders (Multi/GTAW/SMAW/MIG)**

**Pipe & Structural Fabricators/Fitters**

**Riggers, Scaffolder, Helpers, Spray/Sand Blasters**

**Electricians, Plumbers, Carpenters, Painters**

**Duct Technicians, Forklift & Lathe Operators**

**Storekeepers, HVAC Technicians**

## Electrical Works

All types of domestic & industrial installations  
Electrical maintenance  
Electrician resource supply

Think Unlimited

# IMPLEMENTATION ROADMAP

## Research and Planning – Metal Fabrication & Welding Works

At MFTC Group, every metal fabrication and welding project begins with precise research and well-structured planning to build a strong foundation for success. Our team conducts in-depth analysis of project specifications, client requirements, and structural needs. We assess factors like material selection (carbon steel, stainless steel, aluminum), welding processes (TIG, MIG, ARC), and design feasibility. We also evaluate technical drawings, relevant codes (ASME, AWS), and environmental conditions to anticipate challenges early. Risk assessments and resource planning—including manpower, equipment, and timelines—are carefully mapped out to ensure smooth execution. By documenting every phase from initial concept to shop drawings and pre-fabrication planning, we ensure full alignment with client expectations and industrial best practices. Our planning not only enhances project efficiency but also reduces material waste, avoids delays, and delivers scalable, high-quality results. With this strategic approach, we turn complex fabrication and welding challenges into reliable, safe, and value-driven solutions.

## Monitoring & Evaluation – Metal Fabrication & Welding

At MFTC Group, we follow a structured and quality-driven monitoring process across every stage of fabrication and welding. Our goal is to deliver precision, durability, and compliance with international standards.

### 1. Scope & Planning

We begin with a thorough site assessment and technical review, defining materials, welding standards, and project scope for accurate execution.

### 2. Design & Approval

Detailed CAD drawings and welding procedures (WPS/PQR) are prepared and approved, ensuring all project requirements are met.

### 3. Material Inspection

Certified materials are sourced and inspected for quality, with all MTCs reviewed before production.

### 4. Fabrication & Welding

Our skilled team performs TIG, MIG, and ARC welding under continuous supervision. Each weld is checked for strength and accuracy.

### 5. Testing & Quality Control

We perform NDT (UT, RT, PT, VT) to confirm weld integrity and safety compliance.

### 6. Final Review & Handover

A full QA/QC inspection is conducted before delivery, along with all required documentation.

### 7. Post-Delivery Support

We offer ongoing support, performance checks, and maintenance solutions to ensure lasting value.

# Our clients

## OUR CLIENTS (Selected Major Clients)

- ADNOC
  - HYUNDAI
  - LAMPRELL LIMITED LLC
  - DP WORLD (DRYDOCKS WORLD)
  - NATIONAL PETROLEUM CONSTRUCTION COMPANY (NPCC)
  - MABANI STEEL LLC
  - SPECIALIST SERVICES LLC
  - VELATH ENGINEERING WORKS
  - TECHNOMAK ENERGY INTERNATIONAL FZE
- (...and 100+ other leading names in the industry)
